Mark for the final thesis

The students will discuss the thesis in front of an integrated panel. The integrated panel will be composed of professors of both universities.

In *Master Degree in Business Administration in International Hospitality and Tourism*, awarded by Babeș-Bolyai University Cluj-Napoca UBB there is no mark for the final thesis, but only for the Defence of the Master Thesis.

In *Laurea magistrale in Innovation Management for Sustainable Tourism (LM-77)* awarded by the University of Sassari the final graduation mark is given on the basis of 110. The procedure for calculating this mark is the following:

- First, the student's weighed average grade point is multiplied by 11 and divided by 3 to obtain a base mark (e.g., grade point average $28.65 \times 11 = 315.15 : 3 = 105.05$ base mark).
- Then, the panel adds points awarded for the Final dissertation ("Tesi di Laurea") are to the base mark following the discussion of the dissertation (e.g., 105.05 base mark + 4.95 dissertation = 110 final graduation mark).
- When the base mark is high and the dissertation is very good, a *laude* can be awarded by the Commission.

The same panel will award 10 credits for the "Defence of the Master Thesis", according to the rules of UBB.

This 10 credits will be registered in *Laurea magistrale in Innovation Management for Sustainable Tourism (LM-77)* as "extra credits" (sovrannumerari). The score will be converted according to the UNISS conversion scale for UNISS students.
